

**FEBRUARY 2008**

**RON HARPER**

2008 Board President

First off, congratulations to the new members of the Board of Governors. You elected Marilyne Todd, Troy Williamson and Lisa Baird as the new At-large members of the Board. All of these were elected for a 2 year term. Next time you see them at the club make sure you congratulate them and thank them for donating their time and energy.

New Years Eve was great (as usual). There are some pictures floating around of some guy wearing a Liberace style jacket on the dance floor. If you see those please ignore them. (What was I thinking?)

Donny and his staff have a great year planned for 2008. We are all trying to make the club a place where we would want to go for entertainment, dining and fun. Chef Jason has put together a variety of menus for Thursday and Friday nights that have been well received. If you have not tried Date Night yet, you have missed out on one of the finest dining experiences that is available in Collin County.

I have heard several people express interest in starting up some additional Clubs in a Club activities. If you have an interest in something and would like to find others with the same interest talk to Donny or Colleen and they will let you know how you can set it up.

Lastly, we continue to try to identify friends and acquaintances that should be members of the club. If you know of anyone, please contact Chelsea and she will help set up the appropriate appointments. If you can't find her in her normal spot – check out her new office area in the Golf Pro Shop.

As we enjoy another Super Bowl (some just enjoy the ads), we can't help but think about why the Cowboys are not playing in it. Everyone, including us, thought they would be there. After all, they were 13 and 3 and had a great season. Why did they lose to New York in the playoffs? A lack of focus – not team focus, but individual focus.

Bob & Carolyn Philo  
Ambassador Co-Chairs

The members of the Ambassadors' Club are each individually focused on the same three functions: welcome new members and potential members to the Club; make sure that new members become quickly and completely integrated into the Club; and, having fun. That's what we do.

Part of the integration into the Club is the introduction of the concepts of "membership by invitation" and "full with a waiting list". Our newest members are our richest resource of referrals for additional members. We believe in the value of our Club and invite you to watch while our membership grows from referrals as our newest members also see and share the value of our Club.

## Gossip From The Grill

I have exciting news for all the members that enjoyed the Wednesday Night Half Off in January. Due to the huge success and positive feedback, we are pleased to extend Half Price Wednesday through February! In January we prepared many delicious entrée specials and now are expanding the menu to include tantalizing dessert specials. Please make plans to experience a night of great food, service and spending time with your friends, family and fellow members. I recommend making reservations; we only have a limited number of tables.

### Valentine's Day

Last year we had rave reviews from all our members who experienced a wonderful evening on Valentine's Day. The event sold out; the meal was outstanding and the atmosphere perfect. I would again suggest making your reservations early, so you are not at a crowded restaurant with strangers on Valentine's Day. Look for details on the Valentine's Day event on the front page of this newsletter and call today to make your reservations while seating is still available!

## Congratulations!

Fellow Member, Mr. Mike McLean seen here walking his daughter Erin to the ceremony.

Congratulations To Mr. & Mrs. Mike McLean on the marriage of their daughter Erin to Tate Hitzmen on January 11, 2008.

As February rolls around, we begin our pre-emergent herbicide applications to control spring weeds on the golf course. This process usually takes around a week to complete depending on the weather and helps keep the golf course clean throughout the spring and summer months. We do this in a two part process. The first part is to spray the entire golf course, then come back 45-60 days later and put out a granular pre emergent. This works well to extend the weed control well into the summer months. Any weeds that sneak through the pre emergent barrier will then be sprayed with a post emergent herbicide to keep the course in the best shape possible.

**Paul Hagy**  
Golf Course Superintendent

The golf course seems to have made it through the winter months very well and is set up to be in outstanding shape when spring comes around. I know we are all looking forward to some beautiful golf weather and ramping up the maintenance staff. The other project that we are working on right now is going through all of the sprinklers on the golf course to make sure they are working properly heading into the summer months. This should take a month or so and will identify and problems that we have and ensure that everything is ready for the summer.

I look forward to seeing you on the golf course!

## WE ARE ALWAYS LOOKING FOR A FEW GOOD MEN!

If you are over fifty years old, you qualify for the Senior Men's Golf Association (SMGA). At present, we have approximately 60 members, but there is room for more. We play tournaments every Tuesday morning using different formats. This gives us a chance to meet other members and to play golf. Handicaps range from 1 to 36. There are no annual dues, but we do have a \$5.00 entry fee for each tournament.

Two major tournaments we have are the Mars/Venus where we take on the ladies associations in a "friendly" battle and the SMGA Championship to determine the best "sand bagger". We also have 4 or 5 inter club tournaments with other local clubs throughout the year.

If you are interested, sign in or call the pro shop on Tuesday at least 30 minutes prior to the shotgun at 8:30 or 9:00 during daylight savings. We also are trying to establish a Super Senior group that tees off around 10:00 for those 65 and older who only want to play 9 holes. We usually end at the grill for socializing or lunch as appropriate.

Contact Val Scott 214-592-9954 or Luis Bazan 972-562-9657 if you have any questions or wish to secure your place in this "champions" organization.

### TENNIS KNOWLEDGE: STRINGS AND RACKETS HAVE A SHELF LIFE.

Most rackets can last from 2-20 years depending on the feel that a player enjoys, however most rackets do break down over time and the average shelf life of a racket is 2-2 1/2 years. This means that from the day you buy a racket till the day it begins to lose playability is about 2 years. (Depending on number of times used per week and or how hard you are on your equipment) The carbon fiber technologies that allow rackets to be lighter and faster break down and lose stiffness, feel, and playability with every hard swing you take. You don't have to replace the racket, but like and old pair of shoes you might think it's just right.

Strings however are a different animal. Strings are must like a new car...once you drive it off the lot the value depreciates. Every time you strike a ball you are stretching the string and thus changing the characteristics of that strings effectiveness. String companies have taken great strides to prevent compression loss with more elastic materials, but the average string changes tension to -10 lbs within 3 months. (Again depending on number of days per week and swing speed/style)

Simple rule of Thumb: Take the number of days played per week. Re-string your racket that many times per year. Replace your racket once every that number of years. Ex. 3 times per week= 3 re-strings per year and one new racket every 3 years! This also represents the number of years that it takes for technology to actual change that much from the current racket you are playing with.

Do you want to be healthier, happier, and in better golf shape?

## Join Us In February For... Eldorado **FIT FOR GOLF** Camp

**Then you can't pass up this offer!**

### What is it?

It is a program where we teach you the most safe and efficient golf stretching routines (which will often diminish or eliminate pain caused by tight muscles); We help you understand why your body may be causing your swing faults; learn what physical limitations correspond to which swing faults; improve your golf posture and rotational ability, upper and lower body flexibility, strength, stability, balance; and to understand how you can get more distance (who doesn't want that). We will give you suggestions on how to make your workouts in the gym more efficient and tailored to your golf game. We will also help you with ideas on ways to get your swing in shape at home with and without equipment or aids.

### Who teaches it?

Jackie Reyes – NMT(Intern), CPT, C.H.E.K. Level III, H.N.L.C. Level III, and Golf Biomechanic. Jackie has 10 years experience in the health, fitness and wellness industry. Jackie has worked with a wide range of clients from the serious athletes to the stay at home moms; designing and implementing individualized programs for corrective exercise, stretching, Neuromuscular Therapy, nutrition and lifestyle coaching. Golf Biomechanics assess the golfer and selects effective exercises and stretches appropriate for each individual golfer. Golfers need to have timing, control, accuracy and skill. Your exercise program needs to contain these elements also.

### When is it and how much does it cost?

Classes will begin Saturday February 9<sup>th</sup> and run through March 1<sup>st</sup> and will be held every Tuesday and Thursday from 9:30 am – 10:30 am, and every Saturday from 7:00 am to 8:00 am. Registered students will be allowed to attend any 6 of the 12 scheduled sessions throughout the month. The cost for the 6 session program is just \$99. If you will be attending less than 4 sessions, a pro-rated fee can be worked out with the instructor.

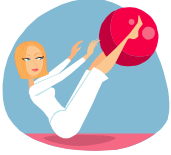

### How do I sign up?

You can register by e-mailing the Head Golf Professional, Scott McClinton, at [smcclinton@eldoradocc.com](mailto:smcclinton@eldoradocc.com) and letting him know the following: Name, member number, dates you are tentatively planning on attending, and if you have any physical limitations that hinder your golf swing. Also, please e-mail Scott at [mcclinton@eldoradocc.com](mailto:mcclinton@eldoradocc.com) if you are interested in the program but are unable to attend during any of those times.

**"Do you want golf to be easier? Do you want to hit the ball farther and straighter? I did, and developing a golf specific exercise routine made it happen. I will be attending every session; Jackie is great! I recommend it to all my students."**

Scott McClinton – Head Golf Professional at Eldorado Country Club

## COUPLES BRIDGE

Eldorado Couples Bridge was held on Saturday night January 19, 2008. Sixteen people joined us for our first meeting of 2008. Prizes were awarded to the top three players. Jo Ann Whitfield took the #1 prize money with Dean Erickson a very close second. Beverly Yoehle took third place and she said she couldn't have done it without the training and support of her husband Herb. The happy trio are shown in the picture.

Couples Bridge meets on the third Saturday of each month in the Women's Lounge at 7:00 pm. This is fun bridge and all levels of experience is welcomed. Please call and join us. If you would like to play please call Shirley Powers at 972-545-9876 or Denise Harrelson at 972-562-2566.
